EVENT ROLLOUT

The WP4 within project IF4TM includes activity 4.2 that consists of five one-day trainings intended to be held at HEIs on "IP Protection and IP Management". The training at IPOS was the fifth and the last one in a row and the participants who were targeted were research staff, teaching staff as well as students, especially the ones who participated in Competition for student's innovation. Participants were introduced to the IP system and important issues on distinctive signs protection, subject of copyright and trade secrets which are very important in the process of innovation development, prototyping and exchange of ideas.

The patent protection was the central topic that was presented and how to search through patent database. In regard to the IP management at universities, the issue of ownership was discussed what drawn up the special attention of participants. The participants from Ministry - MESTD had a lot of questions as well as other participant on the IP Management at university.

During the second part of the training, IP teaching material was presented and how to use it.

The invitation letter was drafted by UBG and sent to UB to be posted on the website of University, Agenda was drafted by IPOS. Invitation to participants was sent by IPOS, and UB to students who took part in student's competition. Organization of event, catering etc. was on IPOS side.

The satisfaction of the audience was measured through the questionnaire and its results will be processed.
